

# MILITARY – HIGH RELIABILITY OPTOELECTRONICS

GUNSIGHT RETICLE

MOTOR CONTROL COMMUTATION ASSY.

MISSILE GUIDANCE ASSEMBLY

REFLECTIVE CODE ASSEMBLY

Clairex Technologies is an internationally recognized leader in semiconductor packaging, specializing in the design and manufacture of high quality, high performance optoelectronic products. Clairex products are used today in a wide variety of military applications. We offer our customers proven design and assembly expertise, and the following advantages:

- ISO 9001:2000 CERTIFIED
- ITAR COMPLIANT
- High Reliability Processing
- Many years of combined military optoelectronics experience
- Face to face contact with Engineering staff
- All design and assembly in the USA
- Wide variety of custom and standard packaging
- Conformance to all pertinent military specifications
- Competitive pricing
